## PROJECTS

### Experiencely [live](#) | [github](#)

*Platform for skill-sharing workshop signups and reviews, adapted from Feastly.*

- Single-page, fully responsive React app built on RESTful Rails architecture.
- Polymorphic associations populate site with user updates and uploads in real time.
- Custom interactive design elements include carousels, clickable star-ratings and jQuery-based CSS transitions.

### 2048 [live](#) | [github](#)

*Addictive number puzzle game built with JavaScript, HTML, and CSS*

- Mobile-friendly jQuery supports phone/tablet swiping gesture
- Every tile rendered to the DOM as a separate element, enabling smooth transitions

### CHESS [github](#)

*Pure-ruby chess game in the terminal.*

- Color-coded move highlights built with deep board duplication to test outcomes.
- OOP focus includes inheritance from common Piece and Slideable classes

## SKILLS

Ruby	Javascript	React	HTML	AJAX	git	SEO	Google Analytics
Rails	SQL	Flux	CSS	jQuery	TDD	RSpec	Google AdWords

## EDUCATION

### App Academy - Web Development Immersive (Summer-Fall 2015)

*Full stack software development course, 80+ hours/week. Acceptance rate 3%*
